NOTE 1.—This blank will be used for both enlistments and reenlistments. It should be filled out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.
NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of mustering. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given in the last line.

NOTE 1.

The company commander will here add a statement of the facts known to him concerning the disease or wound, cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or vice, or situation of the soldier at the time the injury was received, or disease contracted, stating particularly whether the injury was received or the disease contracted the line of his duty; and whatever other facts may aid in determining the cause, immediate or remote, of the disability, and the circumstances attending it. When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, or officer commanding detachment of recruits, &c., &c.

NOTE 2.

When a probable case for pension, special care must be taken to state the degree of disability—as 1/2, 2/3, &c., &c.; describe particularly the disability, wound, or disease; mention to which it deprives him of the use of any limb usually, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In cases of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly stated in the within certificate."

Reg. 1200 Regulations, Edit. 1881.
Medical officers, in giving certificates of disability, are to exercise particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, rheumatism, derangement of the urinary organs, syphilis, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

These certificates will be made out in duplicate by the soldier's detachment commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will fill out, and sign the surgeon's certificate, and forward these to the regimental detachment, or post commander, who will send them, with his action endorsed thereon, through the proper authority, to his division commander; or, if the troops are not attached to his division, to his corps, department, or other commander or officer having the authority to discharge enlisted men may be specially ordered.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned to the surgeon charged to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last paragraph on this paper; see that the soldier is furnished with the proper statements in duplicate, and forward BOTH of these certificates to the Adjutant General United States Army, at Washington, D. C.; they will not, under any circumstances, be given to the hands of the soldier.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier has served should be given on the back.

NOTE 2.—An enlistment holds for service. A recruit must, in all cases, precede payment of pay, bounty, pension, etc. A master-roll must, in all cases, be made out in duplicate in the Adjutant General's Office as evidence of enlistment. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

VOLUNTEERS.

VOLUNTEERS.
Died May 12. 1865.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIOINER officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.--If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 2.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the master roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be secured upon the receipt of these master rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for each pay roll, as ordered by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Supplies."

NOTE E.—Bounty paid by State or Territory, and not by the United States, will not be entered on this statement.

NOTE 2.—Amounts due the United States must be entered on the master roll on which the discharge, via, description, &c., is reported as well as on the final statement, whereas the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 2.—Where a 2-Miler Jno is Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statement, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the addressee is a drafted man or substitute, the space for these, that, of, cancelled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RETIRED), the words of a veteran, (or retired), as the case may be, should be interlined after the words issued (and the words of the U. S. A statement of all the installments of Veteran or Retired Service RECEIVED by the Soldier must be made on the back of each final statement.

NOTE 1.—This blank will be used for both enlistments and re-enlistments of volunteers, etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting master of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A master-in-army, in all cases, precedes payment of pay, bounty, pension, etc. A master-in-roll must, in all cases, be filed in the Adjutant General's Office as evidence of service. MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting ecchymosis or slight depression, let it be noted thus: 'Ecchymosis and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of fire scarring upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circosole, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the recruitment or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Chancous, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes stammer in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any doubts about which a difference of opinion may exist, the fact that such doubts were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be underlined upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and reenlistments of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier has served should be given on the back.

NOTE 2.—An enlistment binds to service. A master-in must, in all cases, provide payment of pay, bounty, premium, etc. A master-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of master-in. The recruiting officer, commissary, or assistant commissary of war, as the case may be, will countersign both enlistments as having inserted the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free capping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Chancroid, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—two to accompany the recruiting return of the recruiting officer (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment book to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The venereal scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed *clean* before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of *all* his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—collection of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

Caroline Paul

being duly sworn upon her oath states that she is now sixty years of age, that she is the wife of Gottlob Paul, now aged 78 years, and the mother of her only child and son Charles Paul who was so cruelly murdered by Union soldiers as will appear in the statement below. She further swears that she and her said husband and son have not in any manner been engaged in or aided or abetted the rebellion in the United States but have always been true and loyal, that she and her said husband reside in the County of Chariton, State of Missouri, and that she this deponent has come to the City of St. Louis in order to lay before the respective Military authorities the following true and correct statement concerning the murder of her beloved son, praying at the same time that this case will be investigated and the criminals and their accomplices held to account for their atrocious deed and be dealt with accordingly.

My only child, Charles Paul left
St. Brunswick, Chariton County, Mo.

on the 18th day of July 1864 in order
to sell our Tobacco and returned home
on the 17th day of December 1864 -
One Certain Capt Berneke Commanding
the Chariton Battalion for some reason
or other ~~adversely~~ accused my son of having
assumed another name. On the 27th
day of December 1864 a ball took place
at New Brunswick where some of the
Soldiers of the 17th Illinois Cavalry Regt
participated. On the night at about
eleven o'clock on the 28th day of December
1864 four Soldiers came to my house
door and two stood at the window
knocking at the door, on opening the
door I asked them what they wanted
so late in the night, upon which they
answered that they wanted to have the
Man of the house, I told my husband
to get up telling him that the Soldiers
wanted to see him, the Soldiers on seeing
my husband, said, we don't want you,
we want your son. - I told the
Soldiers that my son was not at home
upon which the Soldiers entered my house
requesting us to give up the money for
the Tobacco sold at St Louis and the
Revolver my son had bought at that
place, which was of course objected to.

The soldiers asked me where is your son I told them that he was at the house of his friend Mr Augsburg at New Brunswick, upon which the soldiers again asked me if my son would stay at the house of his friend that night.

Said soldiers seeing that they were disappointed in getting the Tobacco money and revolver, one of them asked me if I did not know Jackson the butcher saying at the same time, he was Jackson himself, this very soldier put his hands over his face and ordered his comrades to hang me and my husband, taking a leather strap from one of the horses standing outside suspending my husband in the air, but upon my solicitations released him and ordered my husband and myself to be brought into the smoke house threatening to shoot us in case we would leave it; these soldiers searched the whole house robbed everything valuable and burned everything they did not want to carry along.

On the 30th day of December 1864 Capt. Bernicke aforesaid sent a squad from ten to twelve men of his command to our house with the order

to take the revolver from my son
Charles Paul, my son showed his
permit upon which he bought the
Revolver at S. Lewis, the soldiers on
seeing the same acknowledged that
they had no right of taking the Revolver
but that my son should at once
report with his father with S. A. & A.
Captain Bernicke. My son went
on the same day to Capt Bernicke
at Brunswick, the Captain on
seeing him at once put him under
arrest first taking his revolver from
him and delivered him (my son)
for revenge or some other reason, on
the 30th day of December 1864 to one
Captain Carey or Clarke of the 17th
Regiment of Ills Polo Cavalry, stating
that my son was a bushwacker and
had assumed another name while
at S. Lewis. My son was ordered to
be escorted to Macon City, but the escort
not minding the order took the route
to Callahoo and stopped at the house
of a farmer on the so called Pierbrough
thence they went on the road to Calla-
hoo and about one mile from Calla-
hoo they were met by the Judge from
Macon County moving with his family

to Bloomington, the escort stopped
the Judge and told him they had
a prisoner which they would shoot
and that very soon he would hear
the balls whistling, one of the escort
then took my poor lamented son
about two hundred yards from the
place the escort stopped and shot
him to death, the soldier that shot
him on coming back said that my
son tried to escape and therefore shot him.
One Lieutenant Mart of E. M. M. of
Callahoo reprimanded the soldiers
and had the body of my son decently
buried in the church yard of Callahoo.

This deponent further states that she is
able to prove everything herein contained
by respectable witnesses, and prays that
this case be at once investigated.

Respectfully,
Dissolving Paul.

Mrs Paul lives 4 1/2 miles from Brunswick
Charleston S.C. -

State of Missouri }
County of St. Louis }

On this 30th day of March 1865 before me
the undersigned a Notary Public in and for
the County of St. Louis personally
appeared Caroline Paul who after
being duly sworn upon her oath depose
and say:

My name is Caroline Paul, I am the
wife of Gottlob Paul, aged 76 years and
a citizen of New Brunswick, Charlton
County, State of Missouri. I am the
mother of Charles Paul of same place,
who was murdered January 2 1865
under the following circumstances:
Louis Bernicke then commanding
in Charlton County, Captain of the
49th Regiment Mo. Inf., and brother
in law of my murdered son, who
was divorced from his wife, the sister
of aforesaid Bernicke, incited soldiers
belonging to Capt. Carey's Company
of the 17th Regiment Cavalry Ill.
Volts, to kill my said son Charles
Paul under the representation that
he was a bushwhacker in the manner
as follows:

My son Charles Paul left New
Brunswick July 18th 1864 for St. Louis.

to sell some tobacco belonging to my
~~husband~~. He being prevented to come back
on account of navigation being stopped by
the lumbermen, returned home December
17th 1864. Upon his arrival he was
detained maliciously by said Bennerke
with being a lumberman. The 28th day
of December 1864 four men, whom I believe
to have been soldiers came to our house
and asked for my son, and upon this
being told that he was not in, demanded
the money he had brought back from
St Louis, and a Revolver. He informed
them that there was neither money nor
a revolver of my son's in the house,
and they remarked that they would get
the same anyhow. They then upon pro-
ceeded to hang my husband but upon my
solicitations released him again, but
searched the whole house and robbed and
burnt almost all our property.

On the 30th day of December 1864 said
Captain Bennerke sent a squad of
men to our house with the order to take
the revolver from my son Charles Paul.
The same shown to the soldiers his permit
and seeing the same, they said they had
no right to take the revolver, but ordered
him to come before said Capt Bennerke.

On calling there said Bernanke
put him under ^{took his revolver from him} arrest and detained
near Dec. 31 1864 by Capt. Clarey ^(or Elmer) of
the 11th Regiment Cavalry Ill. Vol., stating
that my said son was a Cuckoo and
had assumed another name
while in St. Louis. My son was to
be sent to Macon City, federal, but
the escort, consisting out of six men of
Capt. Clarey's company of the 11th Ill Cavalry
took him another way towards Callahan.
One mile before Callahan they met
Judge Linton of Macon County and
told him that they had a prisoner whom
they would shoot, and that he soon
would hear the balls whistle. The
Judge Linton stopped and two soldiers
took my son in front near the rear and
shot him dead. On coming back
the soldiers pretended that my said
son had tried to escape, which
is proven to be a lie, as the face
of my son was black from the
discharge of the powder, after being
killed.

This deponent verily believes, that
above named Captain Louis Bernanke
maliciously and wilfully instigated
the soldiers, whose names are unknown

In this deponent, to commit the
murder aforesaid. That said Bennett
instigated his soldiers to robbery and
burning, and always declined to
receive any complaints made to him
as commander of the County about crimi-
nal acts committed by soldiers under
his command.

Deponent further swears that neither
he, nor his husband, nor his murder-
er son Charles Paul, ever have given
any aid or comfort to the enemies
of the United States, but always
since the commencement of the re-
bellion have been true and loyal
citizens of the United States.

Statement of Perry H. Bennett,
who, being sworn, deposes
and says:

I am 26 years of
age. Live in Lincoln Co. Mo. I was
a private in — Co., Capt. Ball,
49th Mo. Inf. 12 months service.
Enlisted about the 25th of August,
1864, at Sny Le, Lincoln Co. Mo.
Got a furlough from Capt. Ball,
for 14 days, immediately after being
mustered. This at Warrenton, Mo.

Ques: Where did you go?

Ans: Went home that day. Next day
went to High Hill, — Co. Mo.
It is about 15 miles back from
the river — about the same distance
from Louisiana, Mo. Went to
see some of my relatives.

Ques: How long were you there?

Ans: One day and a half. From there
I went to Clarksville, Mo. There
over night — was in a boat named
— on the Ill. side. From
there I went to my Bro. in Law, John

K. Ligan, near New Hope, Mo.
Over night at Ligan's. Went to
Galloway's in St. Charles Co. Over
night. The next day went to my
neph. Warraton, Mo.

Ques: How did you go from place
to place, during the time of your
jailough?

Ans: By R.R., on horse back, and
walking. From O'Hallen to Warraton
by R.R. From New Hope to
my bro. in Law on horse back. Had
a horse at Troy, Lincoln Co. Mo.

Ques: How much money had you when
you got to Warraton?

Ans: A dollar or two.

Ques: What did you tell Sub. Gray?

Ans: I don't know. I was tight.
Don't recollect of telling him
I had 40. dollars. Nor of telling
him that I had been to Springfield
Ills.

Ques: Where did you get the horse you
you rode from New Hope to your
home laws?

Ans: Found it in New Hope. from
—.

Ques: What did you do with it?

Ans: The man from whom I found it,
went with me all the way. We had
but one horse a part of the way.
He borrowed another on the road
from a German. We then went on
to my bro. in laws — he lives about
9 miles South of New Hope. When
we got to the house, he ^(the horse hire) went back
with both horses.

Ques: What is this man's business in
New Hope?

Ans: Don't know. Does not keep a Livery
Stable. Never saw him before.

Ques: When did you get the horse you had
in Troy, Mo.?

Ans: On the road towards Waverly, 3 or

4 miles from Troy. Got it from nobody in particular.

Ques: Where did you find ~~from~~ it?

Ans: on the side of the road.

Ques: Where home was it?

Ans: I was told it was an old white. That's all I know about it. This about the 26th day of Aug, 1864. The home was worth about 100 acres.

Ques: What did you do with this home?

Ans: I was too much to know.

Ques: Did you not intend to steal this home?

Ans: No. There was a soldier named John Cox with me. Belongs to the same Co & fleet: with myself.

Ques: Was there any arrangement bet. you and ^{the} man who brought you from the Keope to sell the home he borrowed.

in the road?

Ans: No.

Ques: What was the value of that horse?

Ans: About 125 dollars.

There is a man in Capt. Bails Company of your Regt. by the name of Perry Bennett who while on Furlough last week stole a horse from a citizen of this County and rode him home. from there I have been unable to trace him until near New Hope where he borrowed another horse from a man living there - This last man has not seen anything of his horse since. I understood Bennett returned to Warrenton on Monday or Tuesday via of the R.R. and boasted yesterday to Quind. Bray who was there (at Warrenton) with Capt. Trague that he had spent 30.^{xs} - I went to Louisiana Mo. Springfield Ills and

and then back to Wausenton Mo.
and had \$90.⁴⁴ still left. that he
expected the soldiers had come over
to arrest him but that he did not care
a damn that he was too sharp for
them - I have known this man Bennett
and family for 10 or 12 years they
are a worthless set and have been
charged with horse stealing before.
I want this man arrested and held

about the same time was arrested at

train but he was arrested
for taking a horse from a man who
lives 6 miles from Warrenton. He does
not remember the name of this man,
left - I obtained a permit from
from Capt. Hill of his for 4 days
for the purpose of going to his home
in Lincoln Co. He left his Regt
with John T. & came to on his way
home he found a house in the woods
17 or 18 miles from Warrenton. Coy gave
him the key of the house he
using the key. The house home
same evening. The next morning he went
to a Boat on the Milp River 1 mile
from Warrenton. He tied the horse
& went on board the boat, got very
drunk & remained there all night.
The next morning could not find his
horse, went into the river thinking
he could find it there. He got drunk
again & remained there all night. The
next morning he went home. Was told
the man had been there, said he
had deserted. Said nothing about the
horse. Started immediately for his
Regt. heard no charge against him. Was
detained for several days. The day after
his return. The second day was that
he remained there 1 1/2 days
when he was arrested was under guard
2 weeks then sent to Myrtle St. Prison

Due to the fact where this horse
was not under the control of the
man who owned the horse
when he took it. It is to be noted the
horse came running back as if
to the man. I had no intention of stealing
the horse. I had not been given the horse
away. I had told the owner of his horse he would
pay for it. The horse is now lost. When
he was taken by the man, he was a great
deal of trouble. When he found the horse
could not be found, he was under the
influence of liquor. It is a fact that
he was taken by the man. He was living in

Sept. 27 to 28th of 1864. The
prisoner appears to be a man. There are
no papers or charges in the case.
The 12th of 1864.

Respectfully Refers to the Pro. Mar.
Gen. I would suggest that the 1st
Lieut. of Co. B. 4th Mo. Vols. Inf.
be requested to furnish charges
against this man and in defense
of that to explain his conduct.
This man has been convicted (as
he says) about 6 mos. I find nothing
against him but his own state-
ment, and, judge it as harshly
as that will allow, I think he has
been punished.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A master-in-must, in all cases, precedes payment of pay, bounty, pension, etc. A master-in-roll must, in all cases, be filed in the Adjutant General's Office as evidence of must in. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

Deed June 15/1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Discharges."

NOTE 5.—Bounty paid by State or Territory, and not by the United States, will not be entered on the statement.

NOTE 6.—Amount due to Soldier or his heirs must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for bonded volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for these, &c., of enrolled, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of *Veteran* or *Recruit* Bounty RECEIVED by the Soldier must be made on the back of each final statement.

And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by preferment or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancro, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

FINAL STATEMENT

OF

Private David H. Berry
49 Reg't of Mo Infantry

VOLUNTEERS.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury of baggage, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State or Territory, and not by the United States, will not be entered on the statement.

NOTE 6.—Amounts due the Soldier and his dependents must be entered on the muster roll on which the discharge, with description, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the word for time, &c., of enlistment, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN" (or *RECRUIT*), the words as a *citizen*, (or *recruit*), as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of *Veteran* or *Recruit* Bounty RECEIVED by the Soldier must be made on the back of each final statement.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., in the volunteer service. They will be made out in duplicate in all cases—see to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier is engaged should be given on the back.
NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, company, or assistant company of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

I CERTIFY ON HONOR, That I have carefully examined the above named Recruit, agreeably to the General Regu-
lations of the Army, and that in my opinion he is free from all bodily defects and mental infirmity, which would, in any way
disqualify him from performing the duties of a soldier.

John E. Brumby Surgeon 27th 6. 4. 4.

I CERTIFY ON HONOR, That I have minutely inspected the Recruit, Henry Bick
previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my judgment and belief, he is
of lawful age; and that, in accepting him as duly qualified to perform the duties of an able-bodied soldier, I have strictly ob-
served the Regulations which govern the recruiting service. This soldier has Blue eyes, Dark hair, Fair
complexion, is 5 feet 8 inches high.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

I, Robert M. Biggs ^{desiring} ~~not~~ to VOLUNTEER as a Soldier in the Army of the United States, for the term of THREE YEARS.
 Do Declare, That I am sixteen years and months of age; that I have never been discharged from the United States service on account of disability or by sentence of a court martial, or by order before the expiration of a term of enlistment; and I know of no impediment to my serving honestly and faithfully as a soldier for three years.

CONSENT IN CASE OF MINOR.

Do CERTIFY, That I am George W. Biggs the father of Robert M. Biggs; that the said Robert M. Biggs is sixteen years of age; and I do hereby freely give my consent to his volunteering as a SOLDIER in the ARMY OF THE UNITED STATES for the period of THREE YEARS.

GIVEN at Marion the 24 day of August 1864
 Witness: Geo. W. Keimman George Biggs

(A. G. O. R. & P. O.)

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of volunteers, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment binds to service. A recruit is mustered, in all cases, precedes payment of pay, bounty, pension, etc. A recruit in roll must, in all cases, be filed in the Adjutant General's Office as evidence of mustering. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter sign each enlistment as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable case for pension, special care must be taken to state the degree of disability—as $\frac{1}{2}$, $\frac{3}{4}$, &c., &c.; to describe particularly the disability, wound, or disease; the extent to which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1260 Regulations, Edit. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; one that the soldier is furnished with the proper final statement in duplicate, and forward BOTH of these certificates direct to the Adjutant General United States Army, at Washington, D. C.; they will not, under any circumstances, be given into the hands of the soldier.

NOTE 1.—This blank will be used for both enlistments and re-enlistments of veterans, etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

SEC. 12. And be it further enacted, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars, which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained; and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July [fourteenth,] eighteen hundred and sixty-two, are hereby repealed.

SEC. 13. And be it further enacted, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall contract or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

FINAL STATEMENT

OF

James Blank

48 Reg't of Me. Infy

VOLUNTEERS.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out, (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to baggage, horse equipment, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the Government, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landred men, reported on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount of money collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for three, &c., of enrolled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words or a veteran, (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of Veteran or Recruit Bounty RECEIVED by the Soldier must be made on the back of each final statement.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A master in must, in all cases, precede payment of pay, bounty, pension, etc. A master-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of master in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant-General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 1.

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable case for pension, special care must be taken to state the degree of disability—as $\frac{1}{2}$, $\frac{1}{3}$, &c., &c.; to describe particularly the disability, wound, or disease; the extent to which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1200 Regulations, Edit. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge; and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statements in duplicate, and forward BOTH of these certificates direct to the Adjutant General United States Army, at Washington, D. C.; they will not, under any circumstances, be given into the hands of the soldier.

I, Louis Blumerhoff desiring

MONTHS, DO DECLARE, that I am 44 years and 11 months

by sentence of a court martial, or by order before the expiration of a term of enlistment; and I know
of no impediment to my serving honestly and faithfully as a soldier for twelve months.

Note 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.
Note 2.—An enlistment holds to service. A master-in-must, in all cases, precedes payment of pay, bounty, pension, etc. A master-in-roll must, in all cases, be filed in the Adjutant General's Office as evidence of master-in-must. The mustering officer, commanding company or company of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before giving him to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancro, though not sufficient to disqualify, let it be noted under the proper head; and as of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the reporting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A soldier-in must, in all cases, precede payment of pay, bounty, pension, &c. A soldier-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of must-in. The mustering officer, commissary, or assistant commissary of musters, or the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasion, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free camping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the recruiting or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the Form thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

SEC. 12. And be it further enacted, That the fees of agents and attorneys for making out and causing to be executed the papers necessary to establish a claim for a pension, bounty, and other allowance before the Pension Office, under this act, shall not exceed the following rates: For making out and causing to be duly executed a declaration by the applicant, with the necessary affidavits, and forwarding the same to the Pension Office, with the requisite correspondence, ten dollars; which sum shall be received by such agent or attorney in full for all services in obtaining such pension, and shall not be demanded or received, in whole or in part, until such pension shall be obtained; and the sixth and seventh sections of an act entitled "An act to grant pensions," approved July [fourteenth,] eighteen hundred and sixty-two, are hereby repealed.

SEC. 13. And be it further enacted, That any agent or attorney who shall, directly or indirectly, demand or receive any greater compensation for his services under this act than is prescribed in the preceding section of this act, or who shall contract or agree to prosecute any claim for a pension, bounty, or other allowance under this act, on the condition that he shall receive a per centum upon any portion of the amount of such claim, or who shall wrongfully withhold from a pensioner or other claimant the whole or any part of the pension or claim allowed and due to such pensioner or claimant, shall be deemed guilty of a high misdemeanor, and, upon conviction thereof, shall, for every such offense, be fined not exceeding three hundred dollars, or imprisoned at hard labor not exceeding two years, or both, according to the circumstances and aggravations of the offense.

Approved July 4, 1864.

NOTE 10.—If any soldier is charged a higher fee than that allowed by the above act, he should report the fact and the name of the agent to the Adjutant General, in order that steps may be taken to have the same refunded.

VOLUNTEERS.

Dec June 1 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landworn men be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for freed volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for these &c., of enrolled, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words *as a veteran*, (or *recruit*,) as the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the entitlements of Veterans or Recruits *Bounty RECEIVED* by the Soldier must be made on the back of each final statement.

FINAL STATEMENT

OF

Henry M. Brauntetter, Private 6th
49 Reg't of Mo Infantry

VOLUNTEERS.

Died Jan 25 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement. Other amounts cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for time, &c., of enrolled, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the installments of Veteran or Recruit Bounty RECEIVED by the Soldier must be made on the back of each final statement.

They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.
Note 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. FINAL STATEMENT

OF

William H. Brumfield
4th Reg't of Min. Inf.

VOLUNTEERS.

Died Apr. 6, 1865.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to personal or horse equipments, and other unnecessary charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by the authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his dependents must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the Soldier is a drafted man or substitute, the space for time, &c., of enrolled, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or *RE-ENLISTED*), the words *as a veteran*, (or *re-enlist*), as the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the installments of *Pension* or *Survivor's Benefit* RECEIVED by the Soldier must be made on the back of each final statement.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chloacoele, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

They will be made out in duplicate in all cases—one to accompany the recruiting return of the recruiting officer (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier has served should be given on the return.

The recruiting officer, or assistant commissary of musters, in the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object, as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumcised, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachectics, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained sufficient to settle questions of identity, should such be subsequently raised, and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

FINAL STATEMENT.

OF

49th Reg't of *Ind. Inf.*

Dec Sept 14 1865
VOLUNTEERS.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out (Final Statements are never given to men mustered out of service) that he may at once receive from the Paymaster the pay, &c., due to him, and the captain or other commissioned officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to baggage, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his family must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for time, &c., of enrolment, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or *RECRUIT*), the words as a *veteran*, (or *recruit*), as the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the installments of *Veteran or Recruit Bounty RECEIVED* by the Soldier must be made on the back of each final statement.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circosole, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically; in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Crocodile, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.
NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

Note 1.—This blank will be used for both enlistments and re-enlistments. It should be given to the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.
Note 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. VOLUNTEERS.

Dis June 12 '1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out, (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other (COMMISSIONED) officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to baggage, horse equipments, and other miscellaneous charges, should be entered under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by the Government, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and his family must be entered on the muster roll on which the discharge, demerit, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for armed volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for "Name," &c., of enrolled, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words *as a veteran*, (or *recruit*,) as the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the installments of *Veteran or Recruit Bounty RECEIVED* by the Soldier must be made on the back of each final statement.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c. in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of muster, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

RECRUITING OFFICER.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circocela, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any farther."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

FINAL STATEMENT

OF

Private George Carter
49th Reg't of Missouri Inf

VOLUNTEERS.

Died April 16 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his Descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowance that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the Adj. Gen. of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Laurence must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his Descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

Note 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the counts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.
Note 2.—An enlistment holds to service. A muster is made in all cases, precedes payment of pay, bounty, pension, &c. A muster-roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign the enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

FINAL STATEMENT

OF

Reg't of

VOLUNTEERS.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 2d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due for pay and allowances must be entered on the muster roll on which the discharge, &c., is reported, as well as on the final statement, where the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for home-d volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for the name, &c., of enrolled, should contain only the word drafted or substitute, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words mustered into the service of the U. S. A statement of all the installments of Veteran or Recruit BOUNTY RECEIVED by the Soldier must be made on the back of each final statement.

And in case any of the officers so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by preferment or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

I respectfully returned to Brig Genl H. K. with the statement that I have no knowledge of any statement made by Capt Kempinsky to Private Callitt to induce him to enlist. If Callitt had been discharged from the service on account of surgeons certificate of disability, he was not subject to be re-enlisted and when he signed the declaration on enlistment papers he made a false statement. I am not able to state any thing further.

General

I have the honor
to report that I am a soldier in the 49th
Regiment of Mounted Volunteers, I volunteered on the
16th of August last 1864, at the time of enlistment
I was in the employ of the State, at (S. & A. system)
I told the recruiting officer that I had a discharge
from the U. S. Service on acct. of physical disability
He says I Reminiscently you shall have a commission
& you can resign at any time. The most sacred promises
were made that I should have a commission.
If I did not get a commission he Reminiscently would
not accept of any. I was not successful.
I have tried soldiering and found I was incapable
of performing the duties of a soldier. I asked Col
Syer to release me, he gave his consent if I was physically
disabled, I got the certificate of the Regiment Surgeon
that I was exempt,

on acct of fistula in ano, now General I
wish to be released for I do not wish to become
an incumbrance on my Government. The disease that
I have is killing me by degrees & I wish to see my
family. Capt Kempeny's only objection to signing
my papers is that I can prefer charges against
him that should relieve him of his commission.
I told him Kempeny that I had the disease
above mentioned and that I was exempt but
he said that if would enlist I should be
released at any time now he refuses to release
me. Thinking it unnecessary to say more I am Gentl;

Yours most obt

DECLARATION OF RECRUIT.

NOTE 1.—This blank will be used for both enlistments and reenlistments. It is the volunteer's duty to fill in the blanks. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, &c. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of recruits, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.
 NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

Note 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

FINAL STATEMENT

OF

David C. Chastore
49th Reg't of Missouri Inf.

VOLUNTEERS.

Died May 18 1865.

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the Adjutant General's Department.

NOTE 4.—Charges for loss or injury to baggage, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State or Territory, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Laurence must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

In all other cases, one copy will be sent with a letter of transmittal direct to the Adjutant General, and a duplicate retained by the officer.

NOTE 2.—Particular care should be taken to take receipts in duplicate from the Paymaster for any funds turned over to him; one copy should be sent direct to the Adjutant General and one retained by the officer.

And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by preferment or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

I, Robert M. Blasphill Do certify, That I am

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of recruits, etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.
NOTE 2.—An enlistment binds to service. A recruit-in must, in all cases, precede payment of pay, bounty, pension, etc. A recruit-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of recruit-in. The recruiting officer, commissary, or assistant commissary of recruits, or the case may be, will countersign both enlistments as having recruited the soldier into the service of the United States before either of them is given to the recruiting officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the Medical Officer to ascertain the existence of certain defects that absolutely disqualify, when overlooked, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasion, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any lapse of memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free fighting upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Erysipeloids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practised at the recruiting room or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Chancroids, will find a place. If an interpreter is required during the inspection, the fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained sufficient to settle questions of identity, should such be subsequently raised, and if there be any defects about which a difference of opinion may exist, it is clear that no defects were not overlooked by the first inspecting Surgeon will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancro, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required, the inspection, that fact should be recorded. Men sometimes speak very well when first examined, who, from after considerations, are very ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the recruiting officer (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier has served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, or the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., in the volunteer service. They will be made out in duplicate in all cases—some to accompany the recruiting returns of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.
NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

I CERTIFY, ON HONOR, That I have carefully examined the above named Volunteer,
agreeably to the General Regulations of the Army, and that in my opinion he is free from all bodily
defects and mental infirmity, which would, in any way, disqualify him from performing the duties of
a soldier.

EXAMINING SURGEON.

I CERTIFY, ON HONOR, That I have minutely inspected the Volunteer, *Reuben W. Colbert*
previously to his enlistment, and that he was entirely sober when
enlisted; that, to the best of my judgment and belief, he is of lawful age; and that, in accepting him
as duly qualified to perform the duties of an able-bodied soldier, I have strictly observed the Regula-
tions which govern the recruiting service. This soldier has *Blue* eyes, *dark* hair, *fair*
complexion, is *5 ft 6 in* feet *5* inches high.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—collection of returns, etc., etc., in the volunteer service. They will be made out in duplicate
in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer
who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.
NOTE 2.—An enlistment binds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed
in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both
enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of fire cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from prior considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

FINAL STATEMENT

OF

James Collins

28 Reg't of Missouri Infy

VOLUNTEERS.

Enl. May 23rd 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out. (Final Statements are never given to men mustered out of service.) That he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 31 Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to baggage, arms, equipments, and other miscellaneous charges, should appear under the heading of "Other Expenses."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Company must be entered on the muster roll on which the discharge, death, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for bonded volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statement, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for those, &c., of enrolled, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words *as a veteran*, (or *recruit*,) as the case may be, should be introduced after the words *mustered into the service of the U. S.* A statement of all the settlements of Veterans or Recruits *Bounty RECEIVED* by the Soldier must be made on the back of each final statement.

ARTICLES OF WAR

ART. 95. When any non-commissioned officer or soldier shall die, or be killed in the service of the United States, the then commanding officer of the troop or company shall, in the presence of two other commissioned officers, take an account of what effects he died possessed of, above his arms and accoutrements, and transmit the same to the office of the Department of War, which said effects are to be accounted for, and paid to the representatives of such deceased non-commissioned officer or soldier. And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by preferment or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

ARMY REGULATIONS—EDITION OF 1862.

DECEASED SOLDIERS.

Par. 122. Inventories of the effects of deceased non-commissioned officers and soldiers, required by the 95th Article of War, will be forwarded to the Adjutant General, by the commander of the company to which the deceased belonged, and a duplicate of the same to the colonel of the regiment. Final statements of pay, clothing, &c., in duplicate, will be sent to the Adjutant General with one copy of the inventory. When a soldier dies at a post or station absent from his company, it will be the duty of his immediate commander to furnish the required inventory and final statements, and, at the same time, to forward to the commanding officer of the company to which the soldier belonged, a report of his death, specifying the date, place, and cause; to what time he was last paid, and the money or other effects in his possession at the time of his decease; which report will be noted on the next muster roll of the company to which the man belonged. Each inventory will be endorsed, "Inventory of the effects of _____, late of company _____, regiment of _____, who died at _____, the _____ day of _____, 186-." If a legal representative receive the effects, it will be stated in the report. If the soldier leave no effects, the fact will be reported.

Par. 123. Should the effects of a deceased non-commissioned officer or soldier not be administered upon within a short period after his decease, they shall be disposed of by a Council of Administration, under the authority of the commanding officer of the post, and the proceeds deposited with the Paymaster, to the credit of the United States, until they shall be claimed by the legal representatives of the deceased.

Par. 124. In all such cases of sales by the Council of Administration, a statement in detail, or account of the proceeds, duly certified by the Council and commanding officer, accompanied by the Paymaster's receipt for the proceeds, will be forwarded by the commanding officer to the Adjutant General. The statement will be endorsed, "Report of the proceeds of the effects of _____, late of company _____, regiment of _____, who died at _____, the _____ day of _____, 186-."

NOTE 1.—The effects in all cases, when called for, should be turned over to the legal representative, without farther authority from the Adjutant General. Form 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.
Form 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments on having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

FINAL STATEMENT

OF

Lewis M. Collins
49. Reg't of *Mo. Inftry*

VOLUNTEERS.

Lied Apl 12. 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged without being mustered out, (Final Statements are never given to men mustered out of service,) that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other COMMISSIONED officer commanding the company will certify to the act of the delivery of the duplicate certificates; with these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his vouchers the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been so mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. The endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the Company Commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the receipt of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his last final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to ordnance, horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier for leave, &c., must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

NOTE 9.—If the soldier is a drafted man or substitute, the space for that, &c., of enrolled, should contain only the word *drafted* or *substitute*, as the case may be. If the Soldier is a "VETERAN," (or RECRUIT,) the words as a veteran, (or recruit,) as the case may be, should be interlined after the words *mustered into the service of the U. S.* A statement of all the installments of Veteran or Recruit Bounty RECEIVED by the Soldier must be made on the back of each final statement.

And in case any of the officers, so authorized to take care of the effects of deceased officers and soldiers, should, before they have accounted to their representatives for the same, have occasion to leave the regiment or post, by preferment or otherwise, they shall, before they be permitted to quit the same, deposit in the hands of the commanding officer, or of the assistant military agent, all the effects of such deceased non-commissioned officers and soldiers, in order that the same may be secured for, and paid to, their respective representatives.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, and every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by impositions of fifth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

Pro-Mar-Hut-North-Pro,

Sir

The bearer of this, John Cottrell, at the request of Major Marsh, Pro-Mar, for this sub list, and in accordance with his own desire, I enlisted into the service of the United States about one week ago. He has thus far proved faithful & honest in the discharge of his duties as a Soldier. He is, I believe sincere & honest in his repentance, and says he is desirous of wiping out the stain upon his character, caused by his former rebellious acts. If you deem it not inconsistent or injurious to the good of the country & the service, permit me to respectfully recommend his discharge as a Prisoner & that he be returned to this company to serve as he desires, a Soldier.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of recruits, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.
 NOTE 2.—An enlistment binds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the Disbursing officer.

I, Richard N. Cox, being duly sworn, do say: That I have performed the duty of
1st Lieut Co. "K." in the 4th Regiment of Infantry Mo. Volunteers since the
3rd day of January 1865, by virtue of a commission (or appointment) issued by
the Governor of the State of Missouri, bearing date January 3rd 1865, and
received by me on or before the 6th day of January 1865; (that I have been borne
on the Rolls, Returns, and Reports of the said Regiment as a 1st Lieut. from the 3rd day of
January 1865, to the 4th day of February 1865);* that a vacancy existed in
the grade to which I was commissioned (or appointed) at the time of the receipt of such commission (or appoint-
ment), caused by the organization of Co. "K." of said Regiment, and that I have made
every effort to be mustered into the service of the United States as a 1st Lieut. in the said Regi-
ment, since the 3rd day of January 1865, without success till the present time: So help
me God.

I, Richard N. Cox, commanding the 4th Regiment of

forth are correct, to the best of my knowledge and belief: So help me God.

*This paragraph, or part of it, as the case may be, will be erased when not required.

NOTE.—This affidavit should be pasted to the Muster-in-Roll to which it belongs.

NOTE.—The oath may be administered by the Adjutant of a Regiment, Detachment, or Post, a Judge Advocate or Recorder of a Court Martial, or by a civil Magistrate.

NOTE.—The Mustering Officer will require each candidate for muster into service to exhibit his commission (or appointment) from the Gov-
ernor of the State to which the Regiment into which he desires to be mustered belongs. No muster will be recognized, if made to cover a period
in which the officer is borne on the Rolls and Returns of his Regiment as of an inferior grade, or beyond the date of the receipt of his commission
(or appointment). If an officer is taken up on a muster roll as of any grade before being mustered into service in that grade, after the promulga-
tion of General Orders No. 48, of 1863, it is a false muster on the part of the officer making it, and will not be recognized at the Adjutant Gen-
eral's Office, or by the Mustering Officer, but will be immediately reported to the Adjutant General.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of volunteers, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintending officer (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commanding, if satisfied, countersigns of muster-in, as the case may be, will countersign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that *absolutely disqualify*, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Haemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachexia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the man being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal Standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free cupping upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Circumscised, though not sufficient to disqualify, let it be noted under the proper head; and as of Hemorrhoids or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the recruit's own or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Cachectia, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any further."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be entered upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of veterans, etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the superintendent (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment binds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the recruiting officer.

MODE OF EXAMINING A RECRUIT.

(From Tripler's Manual.)

"The Room in which this examination is conducted should be well lighted and large enough to admit of the men being walked about freely, that every organ concerned in locomotion may be subjected to inspection. For obvious reasons, none others than they whose presence is absolutely required, should be admitted to the room."

"The person of the Recruit should be washed clean before he is presented to the Surgeon for inspection. It is impossible for the medical officer to ascertain the existence of certain defects that absolutely disqualify, when concealed, as they effectually may be, and sometimes are, by incrustations of filth a month old."

"We have remarked that certain defects can be ascertained only by questioning the man himself, and that, in order to avoid all subsequent evasions, the answers to these questions should be recorded on the spot. We shall now suggest a method of effecting this object as well as of making it sure that no important part shall escape inspection through any slip of the memory."

"The Questions should be asked and the man's answers recorded before he is stripped."

"He is then to be divested of all his clothing and the examination proceeded with systematically, in the order of regions as indicated in the 'Form.'"

"The Surgeon is to note every peculiarity or deviation from the normal standard in each particular region. For example: If the man has received at any time a blow upon the head with a resulting cicatrix or slight depression, let it be noted thus: 'Cicatrix and slight depression upon the right parietal protuberance.'"

"Scars upon any part of the person should be noted, and the cause assigned by the man, recorded. It is not uncommon to find marks of free fighting upon the chests of Germans, without there being any indication of disease. These however should be noted."

"If, upon inspection, the man be found to have a Chancroid, though not sufficient to disqualify, let it be noted under the proper head; and so of Miliaria or any other affection. The vaccine scar and its position should be noted, and whether vaccination has been practiced at the rendezvous or depot."

"Under the head of 'Remarks,' Constitutional Syphilis, or other Contusion, will find a place. If an interpreter is required during the inspection, that fact should be recorded. Men sometimes speak English very well when first examined, who, from after considerations, are entirely ignorant of the language when re-examined, and sometimes succeed in obtaining a discharge in this way."

"By this means an accurate description of the whole person is obtained, sufficient to settle questions of identity, should such be subsequently raised; and if there be any defects about which a difference of opinion may exist, the fact that such defects were not overlooked by the first inspecting Surgeon, will be apparent."

"It will frequently happen that an 'absolute disqualification' will be discovered before completing the examination. Such a defect may be detected at any stage of the inspection. In such cases it will of course be unnecessary to proceed any farther."

"The above Form, when filled up, should be sent with the Recruit to the Depot where he is to be finally inspected, and thence transmitted to the Regiment to which he may be assigned."

"Defects discovered at the Depot upon reinspection should be endorsed upon the Form, and signed by the Surgeon; in case of Rejection, the document thus completed should be transmitted with the proceedings of the Board of Inspection to the Adjutant General of the Army."

NOTE 1.—This blank will be used for both enlistments and reenlistments—enlistment of veterans, etc., etc., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting return of the recruiting officer (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, etc. The Regiment and Company in which the volunteer last served should be given on the back.

NOTE 2.—An enlistment binds to service. A muster-in must, in all cases, precede payment of pay, bounty, pension, etc. A muster-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of muster-in. The mustering officer, commissary, or assistant commissary of musters, as the case may be, will counter-sign both enlistments as having mustered the soldier into the service of the United States before either of them is given to the disbursing officer.

DECLARATION OF RECRUIT.

I CERTIFY, ON HONOR, That I have carefully examined the above-named Volunteer, agreeably
to the General Regulations of the Army, and that, in my opinion, he is free from all bodily defects and
mental infirmity, which would in any way disqualify him from performing the duties of a soldier.

previously to his enlistment, and that he was entirely sober when enlisted; that, to the best of my
judgment and belief, he is of lawful age; and that, in accepting him as duly qualified to perform the
duties of an able-bodied soldier, I have strictly observed the Regulations which govern the recruiting
service. This soldier has gray eyes, light hair, fair complexion, is five

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

NOTE 2.

Par. 1260 Regulations, Edit. 1861.

DIRECTIONS

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs, and sent by him to the surgeon who has charge of the hospital where the soldier is sick. These certificates, after having received the notice of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statements in duplicate, and forward BOTH of them certificates direct to the Adjutant General United States Army, at Washington, D. FINAL STATEMENT

OF

Private John Currier
49th Regt of Mass Infantry

VOLUNTEERS.

Filed Mar 13 1865

NOTE 1.—Two of these certificates (or duplicates) are to be given to each Volunteer Soldier or drafted man who may be discharged previously to the discharge of his company, that he may at once receive from the Paymaster the pay, &c., due him, and the captain or other commanding officer commanding the company will certify to the act of the delivery of the duplicate certificates; on these certificates the Soldier is "entitled to" his discharge, and should also present his discharge to the Paymaster to have the payment endorsed on it. The discharge is to be given back to the Soldier by the Paymaster; the latter only retaining as his voucher the duplicate certificates.

NOTE 2.—If the Soldier is entitled to pay for the use of his horse, the Company Commander will certify to that fact on the back of both these final statements, and also to the time he has pay due for having been mounted on his own horse.

NOTE 3.—When a Soldier is furnished with final statements, his descriptive list, if he has one, should be taken up by the officer who gives the Soldier these statements, and endorsed with a statement to this effect by the officer. This endorsement should exhibit a full statement of the time for which the Soldier was allowed pay on his final statements, the clothing account, and all other charges against him or in his favor, so as to comprise a complete exhibit of his account. It will then be transmitted to the company commander of the Soldier, who will enter all the data necessary to a full understanding of the Soldier's account on the muster roll upon which the Soldier's discharge is reported. The descriptive list will then be destroyed. The object of this is, that the remaining portion of the Soldier's account may be settled upon the record of these muster rolls, and the Soldier receive any pay or allowances that may be due him at the time of his discharge, and which may not appear on his final statements from the fact that his descriptive list is incomplete. These accounts for back pay, &c., are settled by the 3d Auditor of the Treasury Department.

NOTE 4.—Charges for loss or injury to personal horse equipments, and other miscellaneous charges, should appear under the heading of "Other Stoppages."

NOTE 5.—Bounty paid by State authorities, and not by the United States, will not be entered on this statement.

NOTE 6.—Amounts due the Soldier and Landrums must be entered on the muster roll on which the discharge, death, desertion, &c., is reported, as well as on the final statement, otherwise the amount cannot be collected from the United States.

NOTE 7.—This blank will be used for deceased volunteers and drafted men, as well as for others.

NOTE 8.—Where a Soldier dies in Hospital or on detached service, his descriptive list, if he has one, should be sent with his final statements, in duplicate, to the Adjutant General, Washington, D. C.

ADJUTANT GENERAL'S OFFICE.

NOTE 1.—This blank will be used for both enlistments and re-enlistments—enlistment of volunteers, &c., &c., in the volunteer service. They will be made out in duplicate in all cases—one to accompany the recruiting officer (not the recruiting officer) to the Adjutant General, and one to accompany the accounts of the officer who pays bounty, &c. The Regiment and Company in which the soldier last served should be given on the back.

NOTE 2.—An enlistment holds to service. A recruit must, in all cases, precede payment of pay, bounty, pension, &c. A recruit-in roll must, in all cases, be filed in the Adjutant General's Office as evidence of enlistment. The recruiting officer, commissary, or assistant commissary of musters, as the case may be, will countersign both enlistments so having introduced the soldier into the service of the United States before either of them is given to the disbursing officer.
